

## Humidisorb

### Purpose

- ▶ Protects moisture sensitive enclosures and electrical/electronic equipment by absorbing and releasing moisture to maintain a long term, constant relative humidity inside of an enclosure.

### Notes

- ▶ Packets are self regenerating and designed for many years of service without replacement or maintenance of any sort.
- ▶ Self-adhesive mounting tape on the packet exterior allows for quick and easy packet mounting.

\* See the Humidisorb packet product sheet for additional information.

### Humidisorb

- ▶ 2" x 2" packet protects up to 200 cubic inches
- ▶ 4" x 4" packet protects up to 2 cubic feet
- ▶ 7" x 13" packet protects up to 25 cubic feet

## X-Corrode

### Purpose

- ▶ Designed to protect electrical and electronic equipment against corrosion by slowly releasing a corrosion inhibitor which passivates all of the metals commonly found in electrical and electronic circuits.

### Notes

- ▶ When used alone, it has a life span of approximately two years.
- ▶ It is also available as a mixture with Humidisorb, which extends its life span to approximately ten years. (Refer to the Humidisorb plus X-Corrode packet product sheet for more information on this mixture).

\* See the X-Corrode packet product sheet for additional information.

### X-Corrode

- ▶ XC-1 - 2" x 2" packet protects up to 1 cubic foot
- ▶ XC-5 - 4" x 4" packet protects up to 5 cubic feet
- ▶ XC-40 - 7" x 13" packet protects up to 40 cubic feet

## Humidisorb Plus X-Corrode

### Purpose

- ▶ Designed to provide a high level of protection against atmospheric moisture and corrosion caused by atmospheric contaminants.

### Notes

- ▶ These packets contain a mixture of Humidisorb and X-Corrode granules. The synergistic effect of using this combination of granules extends the life span of the X-Corrode protection to approximately ten years.
- ▶ Several million of these packets have been sent out world wide over the past twenty years to protect electrical and electronic equipment.

\* See the Humidisorb plus X-Corrode packet product sheet for additional information.

### Humidisorb Plus X-Corrode

- ▶ 2" x 2" packet protects up to 200 cubic inches
- ▶ 4" x 4" packet protects up to 2 cubic feet
- ▶ 7" x 13" packet protects up to 25 cubic feet
